

POWER TRAILER

Safe and off-grid power supply – always and everywhere

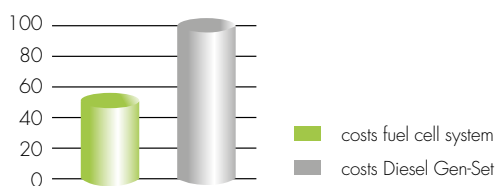

highly efficient | low emission | reliable | quiet |
vibration free | low consumption | environmentally
friendly

Continuous and off-grid power supply in any stationary
and mobile application: e.g. backup-power, surveillance
and measurement systems, outdoor events, building sites,
hospital wards.

CO₂ SAVINGS UP TO 99%

COST SAVINGS UP TO 50%

electric power:	100-1.000 W
max power:	800-3.000 W/60 min
voltage:	230 V AC +- 2% 50 Hz +- 0,1% optional: 12/24/48 VDC
fuel:	LPG, LNG, NG
fuel consumption:	60-250 g/h
refueling intervals:	up to 100 days
maintenance-free operation:	minimum one year
